Frontend Developer / Full Stack Capabilities / ReactJS & Next.js Specialist

PROFESSIONAL PROFILE

Frontend Developer with experience in scalable and custom web solutions. Specialized in ReactJS, Next.js, and modern tools from the JavaScript ecosystem. I have worked on projects involving artificial intelligence, personalized diagnostics, and platforms such as Shopify and Klaviyo. I'm looking to continue contributing to agile teams focused on product and user experience.

WORK EXPERIENCE

Frontend Developer & Diagnostics Experience Engineer

COSMEE — Freelance — Aug 2024 - Present

- Designed and developed the cosmetic diagnostic web interface with a focus on UX and interactive visualizations.
- Integrated AI for facial analysis in collaboration with computer vision specialists.
- Connected the app with external platforms such as Shopify and Klaviyo.
- Optimized system logic to improve the accuracy of recommendations.
- Collaborated with multidisciplinary teams and managed technical deliveries in an agile environment.

Frontend Developer

Gravitad — Jan 2024 - Jan 2025

- Designed and implemented high-quality user interfaces using ReactJS.
- Worked on projects following Figma design guidelines.
- Collaborated closely with both backend and frontend teams.
- Optimized frontend templates to enhance performance and efficiency.
- Applied problem-solving skills to overcome technical challenges.

Frontend Developer

TICK — Oct 2024 - Mar 2025

- Implemented accurate web designs based on client specifications.
- Optimized website performance with a focus on speed and user experience.
- Applied SEO strategies and web analytics.
- Adapted functionalities to meet specific requirements.
- Managed hosting and domains, ensuring system stability.
